* see testresults on backside

FACTS

- Drinking bottle and water purifier in one
- The only EPA-registered (Environmental Protection Agency) virus purifier in the USA
- Purifier for the lower price segment
- For clear water. Only filter cloudy water in an emergency.
- When blocked, the prefilter can be cleaned in reverse (for more details see our web site under "FAQ")
- Hold the bottle vertically when drinking so that water flows safely through the filter
- Equipment used by tour operators
- Tropicinstitut Berlin (tropical institute) found the bottle "very good" in their tests
- Fits into standard cycle bottle holders
- Replacement filter elements available
- Only suitable for water (not for iced tea or other drinks)
- Bottle (not filter elements) can be cleaned in a dishwasher
- Includes a practical carry-loop

PRODUCT CHARACTERISTICS > BENEFITS

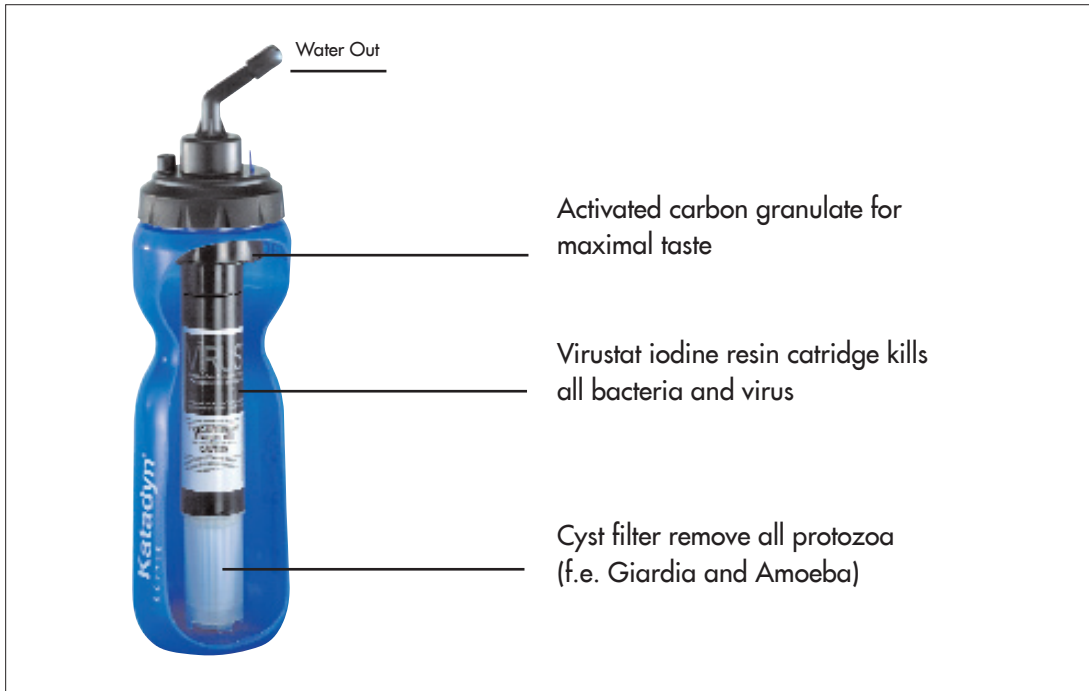

- 3-stage water purifier > great effect - also eliminates viruses
- Purification at the light squeeze of a hand > makes water available immediately, conveniently and without pumps
- With active carbon stage > improves taste of water
- Drinking bottle and water purifier in one > no cup necessary
- Lightweight 220 g > comfortable weight to carry

SHORT PROFILE

Ideal for small amounts of safe drinking water - fast and uncomplicated. For holidays, business trips, day trips, hiking, cycling tours, in-line skating, kayaking, sailing and other outdoor activities.
